

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

FIFTY-FIFTH ANNUAL REPORT  
OF THE  
BOARD OF DOMESTIC MISSIONS.

FROM MARCH 1, 1856, TO MARCH 1, 1857.

---

THE Board of Domestic Missions, in presenting their Fifty-fifth Annual Report to the General Assembly, desire, first of all, to acknowledge with gratitude their obligations to the great Head of the Church for the measure of success with which he has graciously crowned their labours during the past fiscal year.

In some respects we are not able to report any increase; yet, in others, we are privileged to record a gratifying progress. While our receipts have fallen off, as compared with the year preceding, the number of our missionaries has been considerably augmented, the operations of the Board extended, and, what is better than all, the blessing of God has manifestly rested upon the labours of his servants.

OPERATIONS OF THE YEAR.

OF MISSIONS—*Statistical Details.*

The number of missionaries in commission March 1, 1856, was 387, to which have been added, to March 1, 1857, 203, making the whole number 590, and more by 24 than the year previous.

The number of churches and missionary stations, wholly or in part supplied, (as far as reported,) by our missionaries, is 904.

The number of newly organized churches is 59.

The number of admissions on examination is 1940, and on certificate 2054, making a total of admissions of 3994.

The number in communion with churches connected with the Board is 21,863.

The number of Sabbath-schools is 326; of teachers, 2610; and of scholars, 16,409.\*

The number of baptisms is 2144.

Of the 590 missionaries who have been in commission during the year, 188 have sent in no special report for the Assembly, nearly one-third of the whole number; consequently we must increase all the returns nearly one-third to make them correct.

#### APPROPRIATIONS.

The appropriations made to our missionaries, from March 1, 1856, to March 1, 1857, have been at the office in Philadelphia, \$58,885.17, and at the office in Louisville, \$37,219.75; making a total of \$96,104.92.

The appropriations made to our missionaries from March 1, 1855, to March 1, 1856, were, at the office in Philadelphia, \$52,548.34, and at the office in Louisville, \$34,645.88; making a total of \$87,194.17.†

From this statement it appears, that the appropriations made at the office in Philadelphia exceeded those made the year before \$6,336.83, and at the office in Louisville they were more by \$2,573.92; thus making the total appropriations this year more than the year preceding by \$8,910.75.

For the purpose of further comparison we may state, that the *average* appropriations made during the preceding four years, from 1852 to 1856, were, at the office in Philadelphia, \$44,776.21, and at the office in Louisville, \$28,729.19; making a total average of \$73,505.40.

From this statement it appears that the appropriations made from March 1, 1856, to March 1, 1857, at the office in Phila-

\* This includes only those schools which are Presbyterian or denominational.

† As our fiscal year was changed from April 1 to March 1, eleven months only were included in our last Annual Report; but for the sake of comparison we included the month of March, 1856, and compared the twelve months, from April 1, 1855, to April 1, 1856, with the corresponding months of the previous year, viz. from April 1, 1854, to April 1, 1855. Throughout *this* Report the comparison is made between the last fiscal year, viz. from March 1, 1856, to March 1, 1857, with the corresponding months of the year preceding, to wit: from March 1, 1855, to March 1, 1856.

delphia, exceeded the average of those made during the four previous years, \$14,108.96, and at the office in Louisville, \$8,490.56; thus making a total excess of appropriations this year above the average appropriations of the four preceding years, \$22,599.52.

As the missionary appointments are made, with very few exceptions, for twelve months, and are scattered over the whole year, of course a large number of the appropriations made during the year have not yet fully matured, but will be falling due as the present year advances.

#### RECEIPTS.

The total amount of receipts from all sources, from March 1, 1856, to March 1, 1857, is \$93,248.99, to which add balances on hand in the different treasuries, March 1, 1856, \$21,133.17; making the available resources of the Board during the year, \$114,382.16.

The amount paid out at the different treasuries for the same time, is \$95,121.76, leaving an available balance in all the treasuries, on the 1st of March, 1857, of \$19,260.40. The amount due the missionaries at the same date, was \$12,964.86, leaving an unexpended balance of \$6,295.54.

The aggregate receipts from March 1, 1856, to March 1, 1857, have been *less*, as compared with the receipts from March 1, 1855, to March 1, 1856, \$3,995.63.\* The falling off has been in individual or special donations and legacies, \$2,191.33, and in the contributions of the churches, \$1,804.30. The receipts at the office in Philadelphia, including the Presbyterial treasuries, were *greater* by \$2,333.20, and the receipts at the office in Louisville were *less* by \$6,328.83.

The balance in the treasury on the 1st of March 1857, is *less* by \$1,872.77, than the amount which was reported in hand on the 1st of March, 1856. The diminution of our unexpended balance at the close of the fiscal year, the fact that the amount due the missionaries was very nearly \$13,000.00, and the excess of appropriations over the year preceding was very nearly \$9,000.00, show the indispensable necessity of enlarged contri-

\* See note at the bottom of page 10.

butions by the friends of the cause, and the imperative duty of increased caution on the part of Presbyteries in recommending, and the Board in granting, future appropriations. Indeed, it is obvious that unless the resources of the Board are augmented they will not be able to continue their present scale of appropriations without involving themselves in debt.

It is true the available balance in hand on the 1st of March, 1857, is comparatively large, and without explanation may readily mislead the patrons of the Board. Indeed we have reason to fear that, notwithstanding our repeated explanations of this matter, some of our friends still entertain a wrong impression, and have withheld or diminished their contributions, on the supposition that the Board could not be in need of pecuniary assistance because the balance reported was so large. We will therefore again state, what we have repeatedly stated in our previous Reports, that the amount on hand at the period of the year when our balance is reported, is always larger than at any other time. From the month of March, the receipts begin to fall off, and during the latter part of the spring, the entire summer, and the early part of the fall, the receipts are comparatively small; so that unless our available balance at the commencement of the fiscal year is comparatively large, it would be impracticable to carry on the operations of the Board during the year. For example, at the beginning of the fiscal year, March 1, 1856, we reported an available balance of more than \$21,000; and yet by the 1st of November ensuing, we had only about \$3,000 in hand! not more than enough to meet the usual payments for two or three weeks! Now, with a smaller balance at the beginning of the year—a considerable increase in the number of our missionaries—and an excess of appropriations amounting to nearly \$9,000, it is obvious that our available balance must be gradually reduced as the year advances, and may be entirely exhausted before the 1st of November.

When the number of missionaries, was much smaller than at present—when the average salaries was much less—when the annual expenditures of the Board were not half so great as now, of course a much smaller balance at the commencement of the fiscal year was all-sufficient. But with our present enlarged

operations and expenditures, experience has shown that an available balance at the beginning of the fiscal year of about \$20,000 is indispensable to enable the Board to meet their engagements promptly, and without embarrassment during the entire year.

### OUR MISSIONS.

During the year, the Board have established new missions in various sections of our country, as well in larger cities and towns, as in smaller villages and rural districts. They have also to the extent of their ability, re-enforced our missionaries in the newer States and Territories. Two additional missionaries have been sent to California, three to Minnesota, one, in addition to those already there, has been employed in the Territory of Oregon, and one in the Territory of Washington. We have also commissioned one in the State of New Hampshire. Seven additional missionaries have been employed in Missouri. Ten new men have been commissioned in Wisconsin, and seventeen in Iowa, which, with the changes that have taken place, make an increase of fifteen in those two States. We have also added two to the number of our missionaries in the Territory of Kansas, and the same number in the Territory of Nebraska. Commissions have been offered to several brethren to some of the more distant States and Territories, in order still further to re-enforce our missionaries, and extend the boundaries of our Church, and our hope is that they will not decline them. The Board are earnestly desirous of occupying various other important and promising points, and of enlarging the boundaries of the Church; but the great difficulty has been the deficiency of ministers compared with the demand for missionaries in a country so extended as ours, and a population so rapidly spreading and augmenting—and to this difficulty another will be added, unless the contributions from the churches are augmented, viz. a deficiency of pecuniary means.

With regard to the spiritual state of our missions, the Board are happy in being able to say, that so far as they can judge from the reports of the missionaries, there is cause for gratitude and praise. While some have been discouraged in their labours, the greater portion write encouragingly of the religious state

and prospects of their ministerial charges, and some have communicated to us the cheering intelligence of revivals of religion. During the last year there has been an increase, as compared with the year preceding, in the number of admissions to their churches, both on examination and by certificate. The increase on examination is 108, and by certificate 218; making a total increase of 326 over the previous year.

### ITINERANTS.

During the past year, thirty-three of our missionaries have been commissioned and employed as Itinerants. The greater part of our missionaries perform more or less of such service, but the number above mentioned are either wholly, or almost entirely employed as itinerants. The number commissioned as itinerant missionaries, during the year, is a little smaller than the year preceding; but we believe that no application for such an appointment by any Presbytery has been declined, although in one or two instances the Board were not able to make as large appropriations as were recommended. \* The aggregate amount, however, appropriated by the Board to itinerants, during the year, was considerably larger than the year preceding.

The Board would be very happy to appoint a larger number of itinerant missionaries, and would again suggest to the Presbyteries the importance of arranging *their missionary churches* with a view to this. There are many weak churches which might be thus supplied by itinerant missionaries, which cannot separately sustain pastors, and by such an arrangement there would be a great saving both of men and funds.

But while it is very desirable and even essential to an economical use of the men and means of the Church, that such arrangements should be made *with respect to feeble churches* within reasonable circuits, there is danger in attempting to employ any very large number of itinerants in wholly destitute sections of our country, where there are no churches organized, and from which the itinerants can derive no pecuniary support. It would, indeed, be desirable to commission a vast number of itinerants, so as fully to occupy the entire land, if we had the

means to sustain them; but with our limited resources this is, of course, impossible. The appropriations required for the entire support of such itinerants are very large, and their number cannot be much increased without reducing the appropriations now made to the pastors and stated supplies of our missionary churches. The Board will cheerfully assume the entire support of as many itinerants in such destitute districts as their funds will allow, and beyond this they cannot go without injustice to the rest of our missionaries and missionary churches. We trust the Presbyteries will be careful in recommending the appointment of itinerants in districts from which they can derive no pecuniary aid, and especially in recommending large appropriations for such service.

#### CLOTHING.

Clothing valued at \$9,131.81 has been received during the year and distributed among the missionaries who needed it. Of this amount \$4,949.72, were received at the office in Philadelphia; \$2,488.45 at the office in Louisville; and \$1,693.64 at the depot in Pittsburgh.

The Board have received, during the year, many grateful acknowledgments from our missionaries of the receipt of the clothing forwarded to them. We have no doubt that such donations are in many cases a great relief and comfort to our inadequately supported missionaries and their dependent families. They sometimes declare to us that without such assistance they would have actually suffered, and might have been compelled to abandon their fields of labour. In some instances they have described most touchingly the domestic scene of tearful gratitude and joy occasioned by the reception of a missionary box, and the eager examination of its valuable contents!—and no doubt, at the family altar, the blessing of the Almighty has often been subsequently invoked, by the grateful household, upon their considerate and generous friends. The Christian ladies to whom our missionaries are mainly indebted for these donations, may rest assured that their labour of love is highly useful, and is duly appreciated by those who are the recipients of their favours.

If the ladies will allow us to do so, we would respectfully suggest that in making provision for the ministers' family, *the missionary himself* ought not to be overlooked. He is often in great want of clothing himself, and a coat or overcoat would frequently be a very desirable addition to his scanty and threadbare wardrobe.

If a further suggestion would be allowed, we would respectfully and kindly intimate that *theological books*, as well as clothing, would be a very acceptable and useful donation to many of our missionaries. Their libraries are often very small, and their salaries so meagre that they cannot afford to purchase the books they so much need. Their ability and usefulness would be greatly increased by judicious additions to their libraries; and we have reason to know that many of them would value such presents most highly. Could not the ladies procure such books, and place a few of them in every box of clothing they forward?

We trust it is now well understood that the value of the clothing or books sent to our missionaries is never deducted from the salary of those who receive them, but is regarded simply as a special donation to them from the friends of the cause. We will add, that such donations of clothing or books ought never to be allowed to interfere with or diminish the contributions to the Board, as such an effect would be highly prejudicial to the Board, and injurious to the missionaries themselves.

## EXECUTIVE COMMITTEES.

### DIVISION OF FIELD BETWEEN TWO EXECUTIVE COMMITTEES.

The Board carries on its operations through its two Executive Committees, the one located in Philadelphia, the other in Louisville, Kentucky. Between these two committees the territory of the Church is unequally divided; each committee having, according to the division made by the Board, its own assigned field and limits.

*The field of the Executive Committee located in Philadelphia*, embraces the Synods of Albany, Buffalo, New York, New Jersey, Philadelphia, Baltimore, Pittsburgh, Allegheny, Wheel-

ing, Ohio, the Presbyteries of Logansport, Lake, and Fort Wayne in the Synod of Northern Indiana, the Synod of Wisconsin, the Presbytery of St. Paul in the Synod of Iowa, the Synods of Virginia, North Carolina, South Carolina, and Georgia, the Presbytery of Tuscaloosa in the Synod of Alabama, the Presbyteries of Louisiana, Red River, and New Orleans in the Synod of Mississippi, and the Synod of Pacific; covering twenty entire States and eight Territories, and parts of three other States; and having, according to the Minutes of the last General Assembly, 1572 ministers, 1986 churches, and 173,118 communicants. The number of missionaries under the care of the Board in this field, and consequently connected with the Committee in Philadelphia, the past year, has been 335.

*The field of the Executive Committee, located in Louisville, Kentucky,* embraces the Synods of Cincinnati, Indiana, the Presbyteries of Crawfordsville and Muncie in the Synod of Northern Indiana, the Synods of Illinois, Iowa, (except the Presbytery of St. Paul,) Missouri, Kentucky, and Nashville, the Presbyteries of South and East Alabama in the Synod of Alabama, the Presbyteries of Mississippi, Tombeckbee, East Mississippi, and Central Mississippi in the Synod of Mississippi, the Synods of Memphis, Arkansas, and Texas; covering eight entire States, and parts of three other States; and having according to the Minutes of the last General Assembly, 726 ministers, 1153 churches, and 60,380 communicants. The number of missionaries under the care of the Board in this field, and consequently connected with the Committee in Louisville, the past year, has been 255.

#### THE WESTERN EXECUTIVE COMMITTEE.

The Twelfth Annual Report of the Western Executive Committee is printed, as usual, at the end of this Report.

As stated by us under the head of receipts, there has been, during the past year, a *falling off* in the receipts at the office in Louisville, as compared with the corresponding twelve months of the year preceding, of *six thousand three hundred and twenty-eight dollars and eighty-three cents*, (\$6,328.83.) The Committee in their Report show a different result, because they compare their receipts during the last fiscal year, viz. from

March 1, 1856 to March 1, 1857, with their receipts from April 1, 1855 to April 1, 1856. They also exclude *legacies* in their comparison, which were much greater during the year 1855—6, than during the past year, 1856—7.

Notwithstanding the receipts at the office in Louisville were so much less than during the corresponding months of the year preceding, the wants of the Western Executive Committee were fully and promptly met. Drafts by that Committee upon the treasury in Philadelphia, during the year, to the amount of *eighteen thousand five hundred and four dollars and seventy-five cents*, (\$18,504.75,) were promptly paid. While the treasury in Philadelphia has been able hitherto to meet promptly all the drafts made upon it by the Western Committee, there is reason to fear that it will not be able to meet them in future, if they should continue to increase, as they have been, during the last two years. In 1855—6, (eleven months) the amount drawn for was \$6,967.78; and the amount drawn for during the past year, 1856—7, was \$18,504.75; being an increase over the preceding fiscal year of *eleven thousand five hundred and thirty-six dollars and ninety-seven cents*, (\$11,536.97.)

We are gratified in being able to state, that while the receipts at Louisville, during the past year, as compared with the corresponding twelve months of the year previous, were so much less, the falling off was chiefly in legacies, and not mainly in the contributions from the churches; and our hope is that their receipts from all sources, during the year upon which we have entered, will be increased, and thus all future embarrassment prevented.

We take great pleasure in stating, that the number of missionaries commissioned by the Western Executive Committee was very considerably increased during the past year; and that the missions within their field appear to be, generally, in a prosperous condition.

#### OBJECTS OF THE BOARD, AND THEIR IMPORTANCE.

In order to keep the objects of the Board distinctly before the churches, we repeat the statement made in our previous Reports. The objects of the Board of Domestic Missions are

two-fold:—1. To supply vacant churches, and assist weak and feeble congregations in the support of pastors; and, 2. To extend the boundaries of the Church, by employing ministers to preach the gospel, organize new congregations, and form churches in the hitherto neglected and waste places of our country.

The last General Assembly expressed no more than the truth, when they declared that “the cause of Domestic Missions, in its present and prospective relations and objects, is second to no other in magnitude and importance;” for the operations of the Board of Domestic Missions are not only indispensable to the extension of our Church throughout our country, but they are also essentially necessary to the continued existence and prosperity of hundreds of our churches already organized. Without the aid derived from the Board, hundreds of our weak and feeble churches would be unable to support and retain their pastors. Nor would it be practicable to supply the numerous places scattered throughout our widely extended country, which are as yet destitute of evangelical ministers, without some such agency as the Board of Domestic Missions. And without the preaching of the gospel, and the establishment of Christian churches and institutions throughout the length and breadth of the land, how are men to be converted to God, and the nation preserved from ruin?

The Board continue to receive, from almost every section of our country, the most urgent appeals for missionary aid. As stated in our last Report, the wants, especially of our newer States and Territories, are pressed upon us with increasing and affecting earnestness, and the importance of supplying them with intelligent and evangelical ministers, while in their formative state, cannot be too highly estimated.

In this connection we state, that we have continued to employ a number of missionaries among our foreign population. One has laboured among the French, one among the Bohemians, one among the Welch, and thirteen among the Germans. We may add that six of our missionaries have laboured chiefly among the coloured people.

## PROGRESS MADE BY OUR CHURCH IN THE MISSIONARY WORK.

Considering the vast area of our country—its rapidly augmenting and extending population—and the numbers and wealth of our denomination, we have accomplished but little compared with what we might have effected, by the blessing of God, if all our people had possessed the spirit and made the sacrifices and efforts which characterized the disciples of Christ in apostolic times; and in view of our great shortcomings and sins it becomes us to be profoundly humble and penitent before Him from whom we have received so much, and for whom we have done and suffered so little. And yet, through the unmerited mercy and superabounding grace of God, our Church has, by her missionary operations, effected a vast amount of good, and is contributing her share towards the thorough evangelization of our land, for which we desire to be sincerely and earnestly grateful.

It is truly gratifying to know that, from the very beginning, our beloved Church has possessed and manifested a missionary spirit; and that this Christ-like disposition has been steadily increasing and expanding. Before the existence of the General Assembly—from 1706 to 1788—first by the mother Presbytery of Philadelphia, and afterwards by the Synods of Philadelphia and New York, many efforts were made, and collections taken up, to promote Domestic Missions.

After the Constitution of the General Assembly in 1788, the work of missions was conducted by the Assembly itself until 1802, when, from the accumulation of business, the Assembly not being able to give it that attention its importance demanded, the work was placed in the hands of a "Standing Committee on Missions," which committee continued to act until 1816. This arrangement not being found sufficiently effective, the Assembly, in 1816, created the present Board of Domestic Missions. In 1828, this Board was re-organized, with enlarged powers, suggested by the previous experiments and accumulated experience of the Church, which infused new life and energy into its operations. In order to show the progress that has since been made, we submit the following statements:

In 1828, the year of the re-organization of the Board, there were but 31 missionaries, and an income of \$2,400.00 only.

In 1840, two years after the division of the Church, and when the parts were fairly separated, there were 256 missionaries, and an income of \$40,734.00.

The following table will show the progress that has been made in the last four years. The figures in the first line of the table are derived from the last Report under the preceding administration of the Board.

Year.	Number of Missionaries.	Individual donations and legacies.	Contributions from churches.	Total receipts.	Amount appropriated to the missionaries.
1852-3,	515	\$24,200.00	\$57,255.33	\$81,455.33	\$56,911.08
1853-4,	523	11,995.47	63,212.33	75,207.80	75,421.92
1854-5,	525	9,168.44	62,666.03	71,834.47	74,494.42
1855-6,	566	23,601.26	73,643.36	97,244.62	87,194.17
1856-7,	590	21,409.93	71,839.06	93,248.99	96,104.92

From this it appears, that since 1852-3, there has been an increase of missionaries 75, a decrease of individual donations and legacies \$2,790.07, and an increase of contributions from churches \$14,583.73, being an augmentation in the total receipts of \$11,793.66. The increase, during the same period, in the amount appropriated to the missionaries, is \$39,193.84—which is more than triple the increase in the total receipts.

The following table will show how steadily and wonderfully our beloved Church has, by the blessing of her adorable Head, increased and expanded;—and let it be remembered that this increase and expansion were mainly effected by the instrumentality of her Board of Domestic Missions. We will begin with 1828, the year of the re-organization of the Board.

Year.	Synods.	Presbyteries.	Ministers.	Churches.	Members.
1828,	16,	90,	1,285,	1,968,	146,308.
1830,	19,	98,	1,491,	2,158,	173,329.
1840,*	17,	95,	1,615,	1,673,	126,583.
1850,	23,	127,	1,926,	2,595,	207,254.
1856,	30,	148,	2,820,	3,146,	233,755.

It thus appears that since the re-organization of the Board, we have increased 14 Synods, 58 Presbyteries, 1,035 ministers, 1,178 churches, and 87,447 members. Since 1840, two years after the division of the Church, we have increased 13 Synods,

\* Two years after the division of the Church.

53 Presbyteries, 705 ministers, 1,473 churches, and 107,172 communicants.

These results are certainly encouraging; and while they should elicit our gratitude, and call forth our praise to God, from whom cometh all the increase, and to whom belongs all the glory, they ought also to stimulate us to greater activity, liberality, and prayer, in view of what yet remains to be accomplished.

### SALARIES OF MISSIONARIES.

The Board have, during the past year, very considerably increased the average appropriation to our missionaries, notwithstanding the aggregate receipts have been so much less than the year preceding. This was done on the recommendation of the Presbyteries, and in view of the pressing wants of many of the missionaries; and in the hope that the contributions of the churches would be greater, instead of less, than the year previous. We are gratified in being able to say, that the people have also, during the year, increased the average salary paid by them to their ministers. The increase in the average appropriation made by the Board to the missionaries, during the past year, is \$17.48; and the average increase in their salary, paid by their people, is \$23.71, making a total average increase of \$41.19.

The following table will show the advance that has been made during the last *four* years.\*

To arrive at the average salaries, we have, in

From the foregoing table it appears that the Board have increased their average appropriations to the missionaries, during the last four years, \$59.38, which is a little over 45 per cent. The average increase of salary paid by their people, during the same period, is \$72.21, which is a little over 30 per cent.

If the people whom they serve had increased the average amount paid by them to their ministers, as much in proportion as the Board have increased their average appropriation, our missionaries would now be much more comfortably sustained; and this must be done, or many of them must continue to suffer from the want of an adequate support. With the present number of missionaries employed, and the present advanced scale of

this table, added the fractions necessary to make complete years; this has not been done in other parts of this report, and hence the difference between the figures below and the actual appropriations, as elsewhere stated.

appropriations by the Board, it will probably be found impracticable to advance their average appropriation still further; and certainly it will be impossible to do so to any considerable extent, unless the receipts of the Board should be correspondingly augmented. A small advance in the average appropriation to so large a number of men, amounts in the aggregate to a very considerable sum. For example, the average increase of appropriation last year (\$17.48) to 590 missionaries, involves an additional annual appropriation of more than ten thousand dollars. The average increase of appropriation by the Board for the last four years, (\$59.38) multiplied by the number of missionaries reported (590) shows that the annual liabilities of the Board have been augmented more than thirty-five thousand dollars! It is therefore highly important, and indeed indispensable to the better sustentation of our missionaries, that their people should advance more liberally than they have hitherto done, the average amount paid by them to their ministers. An average addition of twenty-five or fifty dollars to the amount now paid by congregations, would not be seriously felt by the most of them, and such an advance would greatly add to the comfort and usefulness of many of their pastors. We rejoice in the progress that has been made in this direction by many of our missionary churches; and their success should stimulate and encourage all to still further effort, until every minister shall receive at least an adequate support.

### NEED OF FUNDS.

With so large an addition to the number of our missionaries, and an augmentation of our appropriations to the extent of nearly nine thousand dollars, it is obvious that the Board will require much larger contributions than they have hitherto received, in order to be able to meet their engagements. Last year, the total receipts, as compared with the year preceding, fell short nearly four thousand dollars. Had this decrease been in individual donations and legacies, it would not be so noticeable, as they are necessarily uncertain and fluctuating; but nearly two thousand dollars of this deficiency was in the

contributions from the churches. This is very serious, because it is only upon *them* that the Board can certainly and safely rely. With the steady enlargement of the operations of the Board, the contributions from the churches ought to be correspondingly increasing, and should at least be equal, in any year, to the current expenditures of the Board; leaving the receipts from special donations and legacies for the further extension of the Church, and the augmented expenditures consequent thereupon. Instead of this, the contributions from the churches, during the past year, fell short of our payments upwards of twenty-three thousand dollars, (\$23,282.70,) and but for the balance on hand at the commencement of the year, and the large amount received from individual donations and legacies, we would have been largely in debt to our missionaries at the close of the year! We repeat, that as the receipts from individual donations and legacies are uncertain and fluctuating, it is unsafe to base our operations upon them, and the Board can never feel secure until the contributions from the churches are equal to their accruing liabilities.

We trust, from the explanation given in the former part of this Report, that no one will be misled by the comparatively large amount on hand at the commencement of this fiscal year. This balance is *less*, by nearly two thousand dollars, than the amount reported on hand at the beginning of the preceding year, and though large, will be rapidly reduced as the year advances; and unless our treasury is replenished, it will soon be entirely exhausted. As previously stated, although we began the past fiscal year with more than twenty-one thousand dollars in hand, yet by the 1st of November this sum was reduced to about three thousand dollars. With nearly two thousand dollars less in hand at the commencement of this year, and greatly increased liabilities, it is evident that unless the receipts are augmented, or the appropriations reduced, the treasury, by the 1st of November next, will probably be entirely exhausted!

Moreover, it is not only important that the receipts of the Board should be increased, in order to enable them to meet the liabilities which they have already assumed, but also that they

may not be hampered or embarrassed in undertaking the establishment of *new* missions. As stated in our last Report, the establishment of such missions, particularly in the more distant States and Territories, requires, in many cases, an amount of expenditure which the Board cannot prudently incur with the limited means at their disposal. If the available resources of the Board would enable them safely to incur the expense of their establishment, they would soon return, in divers ways, the amount expended upon them. It has, indeed, been a matter of great regret to the Board that they have not been able to establish more missions in some of the more distant States and Territories; but it has been impracticable to do so, without either declining or reducing the appropriations recommended by the Presbyteries to other portions of our missionary field. With funds scarcely sufficient to maintain the ground already occupied, the Board are unable to extend their operations as rapidly and extensively as the interests of our Church and country most obviously and urgently demand. In view of these things how evidently important it is that the contributions of the churches should be more regular, as well as more liberal, and that the treasury of the Board should always be kept sufficiently full to enable them to establish missions whenever and wherever they are needed.

As there are now no collecting agents in the field, we must rely upon the pastors and sessions to see that collections are taken up for the Board during the year. Brethren, may we not unhesitatingly place this confidence in your faithfulness to the cause of Domestic Missions? The responsibility is chiefly yours, and we trust that the sacred obligations devolved upon you will not be forgotten; we will not suppose that they can be, by you, deliberately and wilfully ignored. Not only see to it that your people have the opportunity to contribute, but show them the magnitude and importance of the cause, and urge them to the full discharge of their Christian duty by pressing upon them the great motives by which they ought to be persuaded to give, steadily and liberally, according as God hath prospered them.

## NON-CONTRIBUTING CHURCHES.

In accordance with what seemed to be the general wish of the Church, the Board of Domestic Missions, like the other Boards of the Church, has been trying the experiment of what is called "*the Systematic Benevolence Plan*," and has dispensed with collecting agents altogether. We have no doubt that *if all* the pastors themselves would present the cause of Domestic Missions to their people, and all the churches would take up collections for the Board annually; and especially if arrangements were made in every congregation to procure subscriptions from every individual connected with them, to be collected regularly and at stated periods, it would be the most economical and efficient plan that could be devised. Perhaps the experiment, thus far, has worked as well as could be reasonably expected, for, as stated by the last General Assembly, "it was not to be expected that so great a change in our benevolent operations, involving the change of habits which have obtained amongst us for so many years, could be made at once, and without difficulty." It is certainly encouraging to find that the number of contributing churches to the Board of Domestic Missions is increasing, though very slowly, from year to year. In 1855-6, the increase over the previous year was about 100, and last year, 1856-7, the increase over the former year was about 153.

This result, although encouraging, is far from being satisfactory, while the number of non-contributing churches continues to be so large. According to the Minutes of the General Assembly of 1856, the number of churches connected with the Assembly was 3146. The number of churches which contributed to the Board, during the past year, was about 1503; thus showing that at least 1643 churches contributed nothing to the Board of Domestic Missions during the past fiscal year: we say, at least, because we have taken no account in this estimate of the churches which were organized during the year and which may considerably swell this number. No doubt a much larger number of churches than we have mentioned will report to the General Assembly that they have made contributions to *the cause* of Domestic Missions during the year: but none of

their contributions came into our treasury, and the Board, as such, derived no pecuniary assistance from them:

If, then, *more than sixteen hundred* organized churches contributed nothing, during the past year, to the Board of Domestic Missions, ought there not to be continued and more earnest effort made to induce them to discharge their duty? Who are chiefly to blame for such delinquencies? Would not the greater part of those delinquent churches have contributed to the Board if their pastors or stated supplies had brought the cause before them and given them the opportunity of giving? We have no doubt they would, and fearful indeed is the responsibility of those ministers of the gospel who have not discharged this duty. "In the practical working of this system," said the last General Assembly, "we are persuaded that all failures are owing mainly to the neglect or timidity of the ministry, in not bringing the subject fairly and prominently before the churches;" and hence they resolved, "That all our pastors and stated supplies be earnestly requested, for our Lord's sake, to give to every member of their churches the opportunity to contribute something for the glory of God, presenting the claims of the various objects ordered by the Assembly, publicly and prominently from the pulpit; and that the Presbyteries be earnestly requested to see that the same privilege is afforded to all their vacant churches, and that they report their action on this subject, and the success of it, to the next General Assembly."

The timidity of ministers in presenting the claims of the Board is to us surprising, not merely because, as the ministers of Christ, they are bound to discharge their duty, whether men will hear, or whether they will forbear, but also because we have reason to believe that the people, with very few exceptions, are kindly disposed to give, and are gratified when the opportunity is afforded them of doing so. We have heard of a very few instances in which *church-sessions* have prevented pastors from taking up collections for the Board; but such cases are happily very rare, and they ought to be brought, by the pastors, to the notice of their Presbyteries, that they may discipline the elders who thus presumptuously and wickedly rebel, not only against the solemn injunctions of the superior ecclesiastical courts of the Church, but also against the supreme authority and plain

precepts of Christ himself. There are, however, very few sessions that would not consent to the presentation of any object ordered by the General Assembly, so that the neglect of this duty is almost in every case justly chargeable to the pastor or stated supply.

We have reason to believe that in many instances collections are not taken up for the Board, because they would probably be very small in amount. This is no valid excuse for ignoring a plain scriptural duty, and it is moreover a great mistake to suppose that such small collections are insignificant in their aggregate amount. Every church ought to contribute *something* to the Board, if it be but a dollar or a dime. Duty requires each congregation to give according to their ability, be it much or little; and the aggregate of many small collections would be very considerable, and would very materially aid the Board in the prosecution of their great and important work.

In order to secure a more general coöperation, ought not the Presbyteries, as such, to pay more attention to this matter? In many cases we fear our Presbyteries do not properly notice the delinquency of their churches, nor call them to as strict an account as they ought. If the roll were called once in every year, and each pastor or session called upon to state whether a collection had been taken up for the Board, and if not, to give the reasons which induced the omission of this duty, many churches now delinquent would, through very shame, if from no higher motive, be constrained to contribute to the cause. Some effective measures must be taken by the Presbyteries on this subject, or the present plan of Systematic Benevolence will undoubtedly prove a failure. Already the receipts of the Board show a falling-off, and unless there is a more general and liberal coöperation on the part of the churches, it will be impracticable to sustain our present operations, much more to extend and enlarge them, as the prosperity of the Church, and the best interests of our country demand.

It is with special regret we are compelled to state, that many even of the missionary churches, churches receiving pecuniary aid from the Board, have contributed nothing to our treasury during the past year! Many of these churches have been thus delinquent from year to year, notwithstanding their peculiar

relations and obligations to the Board. Experience has painfully shown that our appeals both to their consciences and hearts have thus far been made in vain. They seem, in this matter, to be alike insensible to their obligations to Christ, and the claims of gratitude, for the aid which they have received from the Board. Ought such churches to be allowed to continue to draw upon the Missionary Fund, when they will not contribute anything to the Board? Would it not be reasonable and proper for the General Assembly to instruct the Board not to grant any further appropriations to churches, which have for two or more successive years neglected to take up a collection for the Board? If the Assembly would instruct the Board to adopt such a rule, it would probably be more effective than any other measure that could be devised, to induce such delinquent missionary churches to discharge their duty in this matter. And if in the application of such a rule, any of the missionaries should suffer pecuniary loss, few, if any, of them would have any just ground for complaint: for in almost every instance the fault would be their own, in not presenting the claims of the Board, and giving their people an opportunity of contributing to the cause.

#### SELF-SUSTENTATION.

We are gratified in being able to state that some of the churches which had been receiving aid from the Board, have become self-sustaining during the past year. We rejoice over all such cases, not merely because the money thus saved may be usefully appropriated to other and more needy missionary fields, but also on account of the great advantages which such churches secure to themselves by their self-reliance and self-sustentation.

The number of churches which have become self-sustaining during the year is, however, very small, compared with the number that might have become so, if the proper arrangements, efforts, and self-denials, required by duty to themselves and others, had been made. We have no doubt that many churches which continue their dependence upon the Board could, and therefore ought to, sustain themselves. And it appears to us to be not only sinful, but dishonourable, for congregations to continue to draw upon the Missionary Fund of the Church, when

they could, if they would, support themselves. If proper efforts were made to bring out the resources of such congregations, the results would show that they are perfectly able to sustain themselves without assistance from others. In some instances this experiment has been made in churches which had been receiving aid from the Board for many years, and which were supposed by many to be utterly incapable of doing without it, and the result has been that they were found fully able and willing to support the gospel among them without any aid from the Board. Is it not the imperative duty of every church to sustain the gospel among themselves without assistance from the Board, if able to do so? Undoubtedly it is; nor can any church be justified in applying for missionary aid, until they have made every inquiry and effort necessary to prove that such aid is indispensable. It is a grievous wrong both to themselves and others to continue to receive assistance from the Board, when they could by proper exertion and self-denial dispense with it altogether. The truth is, that the contributions of many individuals for the support of the gospel among them, bear no just proportion to their pecuniary ability, and are far less than those of many who contribute to the Missionary Fund upon which they are drawing. How many, for example, who own farms worth from five to twenty thousand dollars, give a mere pittance towards the support of their pastor, while many who are not worth one-tenth as much, contribute much more to the Board. If individuals in such competent and even wealthy circumstances would give, as they ought, in proportion to their ability, the churches to which they belong, instead of applying for aid, would be able not only to sustain their pastors, but also assist in furnishing the gospel to those who are really too poor to provide for themselves.

There are many other cases in which *some* aid from the Board is indispensable to enable the churches to support the gospel among them, but in which a smaller sum than what they apply for would be sufficient, if proper efforts were made to bring out their full strength. Every church should endeavour to make some progress towards self-sustentation, and ought not to apply for the same amount of assistance from year to year, and for

many years in succession, without making every suitable exertion to avoid such necessity. There are many churches which continue from year to year, to apply for the same appropriation; and some of them, instead of asking for less, are actually applying for more! There are cases in which churches have remained upon the Board for a dozen years, and yet say they are not able to sustain themselves, nor even to reduce the amount appropriated to them! While, in some instances, the value of the lands, since their original settlement upon them, has increased ten, twenty, fifty, or an hundred per cent., they still apply for the same appropriation from the Board, and appear to think that they could not stand any reduction! We do not say that there may not be instances in which such long and undiminished dependence may be justifiable, but surely such cases demand the most serious and thorough investigation, nor should they be allowed to exist without exhausting every proper effort to remove or diminish such dependence.

It is a great mistake to suppose that such cases of long continued dependence upon the Board are confined to the old States. There are churches west of the Alleghenies, as well as east of them, which belong to this class. In Ohio, Indiana, &c., there are churches now drawing aid from the Missionary Fund, which were receiving aid from the Board ten years ago; and some of them appear to be just as dependent now as they were then. And as the present newer States become older, and emigration continues to increase from them to other and newer States and Territories, so is the number of stationary churches multiplied.

These unprogressive churches are absorbing a very large portion of the Missionary Fund, and their number is increasing. The appropriations made to them are now so large in the aggregate, that the Board are unable to extend their operations into other and more promising fields as they otherwise could and would; and unless some remedy is found for this increasing difficulty, the Board must be more and more embarrassed in their efforts to extend the boundaries of the Church.

By suitable arrangements, many of these weak and stationary churches would require much less aid from the Board. They might be grouped together in some instances and served by one

pastor instead of several. Or they might be arranged into wider fields and served by an itinerating missionary. In this way thousands of dollars could be saved to the Missionary Fund of the Church, and many faithful ministers employed in other sections of our country, where they would be much more comfortably supported, and where, with the blessing of God, they might be much more extensively useful.

In this connection we desire again to call attention to the importance of Presbyterian vigilance respecting the applications of churches for continued aid from the Board. As stated in our last Report, it is obviously impossible for the Board to be thoroughly acquainted with all the local circumstances of the churches applying for assistance, and they must of necessity rely in a great measure upon the wisdom and fidelity of the Presbyteries which recommend them. Ordinarily the Board feel it to be their duty to commission all whom the Presbyteries desire to have appointed as missionaries within their bounds, and to grant to the churches under their care all the appropriations recommended by them, as far as the funds will allow. The responsibility is therefore mainly with the Presbyteries; and if there are any such evils as those to which we have alluded, the remedy is with them, as no church can receive aid from the Board unless recommended by a Presbytery. We respectfully request the Presbyteries and Presbyterian Committees on Domestic Missions to make a thorough investigation into the circumstances of every church applying for renewed assistance; and more particularly in the case of those which have been for any considerable time receiving aid from the Board. In some cases it may be found upon a proper examination, that they are fully able to sustain themselves without any further aid, and in many others, that a much smaller amount than they ask for would be sufficient to enable them, with proper effort among themselves, to support their pastors. A wise economy in the use of the Missionary Fund is a sacred duty, and it is highly important and necessary to the growth and expansion of the Church. Every dollar thus wisely saved may be usefully expended upon other fields, and made productive of good. Brethren, will you not give this subject your serious and earn-

est attention and do your whole duty conscientiously and faithfully?

We trust that we shall not be misunderstood in any of the remarks or suggestions we have made on this subject. We do not mean to express the opinion, that all churches which have long continued to receive aid from the Board, and which are likely never to be able wholly to sustain themselves, ought, on these accounts alone, to be abandoned, and suffered to become extinct. Retention is as truly important and obligatory as extension; and it would be a very unwise policy to abandon churches, merely because they are weak, and are likely to remain so. Many of our old and feeble churches have been weakened by emigration to other sections of our country, and are kept weak by the same cause. They have sent, and are still sending their members into various parts of the land, where they form the nucleus of new and flourishing churches. But for the materials they supply, it would in many places be impracticable to gather and organize Presbyterian churches. It is therefore sound policy, as well as duty, to preserve them from extinction, while at the same time it is equally expedient to provide for them by the most judicious arrangements possible, and at no greater expense to the Church at large than is absolutely necessary.

All that we insist upon is, that no church should be allowed to receive aid any longer than is necessary, and no more at any time than is requisite; that every church ought to become self-sustaining as soon and as fully as possible; and that in all cases where feeble churches can be conveniently united under one pastoral charge, or comprehended in an itinerant missionary circuit, the Presbytery ought to secure such an arrangement.

### CHURCH DEBTS.

As many of our missionary churches have been greatly embarrassed by debts incurred in the erection of church edifices, we feel it to be a duty to call the attention of our brethren to this subject. It is very desirable and important

for congregations to erect suitable houses of worship, as soon as they are able to do so; for without church edifices, they must continue to labour under great disadvantages. For want of them, many churches remain for a long time weak and feeble, and are obliged to be almost wholly dependent upon the Board of Domestic Missions for their support; and hence this Board has always encouraged its missionaries to endeavour, as soon as they prudently can, to procure the erection of suitable church edifices.

But while it is desirable and important to erect houses of worship, when the means can be raised for their erection, it is very undesirable and injurious to contract debts which the people are unable to pay. Such incumbrances are often oppressively burdensome, and occasion a great deal of uneasiness and inconvenience. They sometimes prevent the growth of congregations by deterring others from uniting with them, and not unfrequently lead to the removal of pastors, on the ground that more popular and attractive preachers are needed to enable the people to liquidate their debts. And while thus incumbered, they are of course not able to support the gospel among them, and are compelled to continue their dependence upon the Board. It is no uncommon thing to assign church-debts as the reason why the same appropriation is required from the Board from year to year, and for many years in succession, and why, in the meantime, they take up no collection for any of the benevolent schemes of the Church!

The erection of church edifices, under such circumstances, instead of relieving the Board, only adds to their expenditures. Thousands of dollars are expended by the Board of Domestic Missions in the support of pastors whose congregations would be able to sustain them without aid from the Board, were it not for their church-debts; and thus, *indirectly*, the Board of Domestic Missions is liquidating debts contracted in the erection of church edifices, or helping to pay the interest accruing upon debts incurred in the building of houses of worship.

There is reason to fear that in some instances there is great want of discretion in the building of houses of worship—they

are sometimes unnecessarily large and costly. It is certainly desirable to build churches sufficiently large to accommodate the existing congregation, and to make a reasonable allowance for a prospective increase of members; and it is conceded that neatness, as well as comfort, ought to be consulted in the style and manner of their construction. Neither are we disposed to condemn a more costly style of architecture, when congregations are able to defray the expense. But it is obviously imprudent for congregations to build larger houses of worship than are necessary, and more ornamental and costly, when they are not able to pay for them; and when the debts thus contracted are almost certain to embarrass them, and prevent them from becoming, perhaps for years, self-sustaining and contributing churches.

Debts thus imprudently contracted by weak congregations, are not only a source of embarrassment to themselves, but they are often a source of annoyance to others. Some of our pastors and churches complain of the frequency with which applications are made to them for collections to aid in paying such debts, contracted indiscreetly, and without a proper regard to the ability of those who have incurred them.

We desire therefore respectfully and kindly to call the attention of all our missionaries and missionary churches to this subject; and we advise them not to commence building until they have secured a sufficient sum to enable them to erect church edifices without involving their congregations in an amount of debt which would be likely to embarrass them, or which would impair their ability to support the gospel among them. Especially do we advise them not to build unnecessarily large and costly houses of worship, which would prove burdensome, and which would protract their dependence upon the Board of Domestic Missions, whose funds are intended for the support of missionaries, and not for the erection of church edifices, nor the payment of debts incurred for their erection.

## CHANGE OF TITLE.

When the Board of Missions was instituted by the General Assembly in 1816, there was no Board of *Foreign* Missions established by the Assembly, and consequently the title given to the Board of Missions was sufficiently distinctive. After the organization of the Board of *Foreign* Missions, it became increasingly evident that something more was necessary to distinguish it from the Foreign Board. This necessity led to the custom of inserting the term *Domestic*, sometimes within brackets, and often without. Indeed, for some years past, in the published Minutes of the General Assembly, the Abstract of the Annual Report of the Board has been prefaced by the title, "Board of Domestic Missions." In some instances the term "Domestic" has been inserted in bequests, under the impression that it formed a part of the legal title of the Board; and in other cases different terms have been employed to designate the Board for which bequests were intended.

In order to obviate this inconvenience, and the litigation and loss occasioned by the want of a distinctive title, the Board obtained from the Legislature of Pennsylvania a change of the corporate title of the Board. The change consists in the insertion of the term *Domestic*. The Legislative act is as follows, viz.

## AN ACT

*To change the name of the Board of Missions of the General Assembly of the Presbyterian Church in the United States of America.*

*Section 1.* Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in general assembly met, and it is hereby enacted by the authority of the same, That from and after the passing of this act, the corporate title, style, and name of the Trustees of the Board of Missions of the General Assembly of the Presbyterian Church in the United States of America shall be, and hereby is changed to "*The Trustees of the Board of Domestic Missions of the General Assembly of the Presbyterian Church in the United States of America.*" *Provided, That*

nothing herein contained shall divest, diminish, or in any way impair or affect the title or right of said Corporation to any of its real or personal estate or effects, or its right to receive, demand, and recover any devise, bequest, legacy, or other gift heretofore made, or which shall hereafter be made to the said Corporation under its former name, for the uses and purposes set forth in its charter, in the same manner as if this act had not been passed.

Signed,

J. M. B. PETRIKEN,

Speaker of the House of Representatives, *Pro Tem.*

FR. JORDAN,

Speaker of the Senate, *Pro Tem.*

Approved the thirtieth day of January, one thousand eight hundred and fifty-seven.

JAMES POLLOCK.

We trust that all the friends of the Board will notice this change in the corporate title, and that it will be particularly remembered by those who intend to make bequests to the Board of Domestic Missions.

The State laws differ so much that no one form will answer in all the States, but in every case it is essential to give the RIGHT CORPORATE NAME, viz. "*The Trustees of the Board of Domestic Missions of the General Assembly of the Presbyterian Church in the United States of America.*" When real estate or other property is given, let it be particularly described.

As the benevolent intentions of testators have often been thwarted by the imperfect and illegal manner in which their wills have been written, and many thousands of dollars have been thus lost by the Board, we would again respectfully but earnestly request any who may desire to make a bequest to the Board, to be careful in drawing their wills, and especially in giving the full and exact corporate title of the Board, as that is essential. Too much care cannot be taken on this subject, in order to prevent expensive litigation and loss.

## A FEW WORDS TO OUR MISSIONARIES.

We are gratified in being able to say, that a somewhat larger number of missionaries have sent in their *special reports* than the previous year; for although the number reported by us as delinquent is one more than the year preceding, yet the proportion of delinquents is smaller when compared with the increased number of our missionaries. We regret, however, that there should still have been so many who have neglected this duty, and would once more earnestly request all to attend to this matter hereafter, to make their reports as full and as accurate as possible, and to forward them to us in due season.

We are also gratified in being able to state, that an increasing number of the missionaries in the field assigned to the Western Executive Committee, are forwarding their *quarterly* reports to the office in Philadelphia. We thus become better acquainted with our missionary brethren—with the character of the fields they occupy—and the state of our missions in those sections of the Church. We can thus appreciate more justly their labours, and sympathize with them in their trials. We would be glad if *all* of them would comply with the standing rule of the Board, which we re-publish at the bottom of this page.\*

It affords us great pleasure also to state that a larger number of our missionaries have forwarded contributions to the Board, and that the collections from their churches appear to be, in many instances, increasing from year to year. Indeed some of the missionary churches have been very liberal, and deserve special commendation for the good example they have set to

\* The following resolution was adopted by the Board, June 30th, 1845, viz.

“Resolved, That the missionaries of the Board under the supervision of the Committee at Louisville, be directed to send to the Secretary of the Committee at Louisville, a *duplicate* of each quarterly report to the Board. These missionaries are expected, according to the instructions in their commissions, to send regular quarterly reports to the Board, as heretofore; and in addition, under the present regulation, they are directed to send at the same time, *copies* of these reports to the Committee at Louisville, to enable that Committee to keep their accounts. The missionaries within that agency will receive their pay from the Treasury at Louisville, on orders of that Committee.”

others. We regret that we are compelled to add, as in previous years, that many of our missionaries have reported no collections for the Board during the past year. How they can reconcile this delinquency with their obligations to Christ, and their duty to the Church, we cannot conceive. A proper regard to the temporal and spiritual prosperity of their own congregations, should constrain them to cultivate the grace of benevolence among their people—for no church can truly prosper while ignoring this plain scriptural duty. Besides, it is so ungenerous to continue to derive their support from the Board, and yet neglect to aid in replenishing its treasury! It is no excuse to say that their churches are weak and feeble; for there is not a church in the land that could not afford to give *something*, nor one, we verily believe, that would not be willing to do so, if a suitable opportunity were afforded them. It is not so much the amount which feeble churches might give that we care for; it is the principle that is involved, and the evidence which such contributions afford of the fidelity of their pastors, and the Christian spirit of their people. But it is a great mistake to suppose that the contributions of such churches, would amount to but little—in the aggregate they would be very large, and would very materially aid the Board in sustaining their missionaries. We sometimes feel discouraged in our unceasing efforts to raise funds for their support, in view of the little zeal which many of them manifest in aiding us to promote their own interest! May we not hope that the time will come, when *every* missionary of the Board will annually present the cause of Domestic Missions before his congregation, and thus afford them the opportunity of giving?

We desire to express our obligations to those of our missionaries who have favoured us, during the year, with suitable matter for the *Home and Foreign Record*. Such articles are highly prized by us, and will always be welcome. Our regret is that so few of the reports of our missionaries are suitable for publication. They are generally written in haste, and often communicate nothing that would be likely to interest the public. We would be glad if more of the brethren would prepare their reports with a view to publication. They might at least

occasionally communicate facts and incidents that would be both interesting and useful, and thus greatly promote the cause of domestic missions.

We will add a few words in relation to the labours and trials—the joys and sorrows of our beloved missionaries. We rejoice with those of you who have seen the work of the Lord prospering in your hands. What ground for gratitude—what cause for thanksgiving and praise to God, that he has so graciously blessed your labours, and made you instrumental in winning so many precious souls to Christ! The eternal salvation of men is the great object for which we are labouring, and for every soul converted and saved by your instrumentality, we heartily unite with you in grateful and joyous praise to the triune God. Let your past success, dear brethren, encourage and stimulate you to greater exertion and prayer, and the fruit you have gathered may prove the earnest of a greater and more glorious harvest.

We deeply sympathize with those of you who have felt discouraged because you have not been permitted to see any evidence of good results from your labours. Be not disheartened, you have not laboured in vain, and will not fail of your reward in heaven, if you have endeavoured conscientiously and faithfully to discharge your duty. The seed sown in tears will some time be gathered with rejoicing; for God is not unrighteous to forget your work and labour of love. You have, we know, many difficulties to contend with—many trials to endure; but God has promised that his grace shall be sufficient, “and we know that all things work together for good to them that love God, to them who are the called according to his purpose.” Continue, then, dear brethren, to discharge your duty zealously, patiently and perseveringly, and cheerfully trust in the wisdom, power and faithfulness of your covenant-keeping God. And while we commend you daily to the care and blessing of our Heavenly Father, we earnestly request you to pray for us, that we may be enabled to prosecute the great and difficult work assigned us, most wisely and efficiently, to the glory of God, the welfare of our beloved Church, and the speedy evangelization of our entire land.

Let us all remember that the time is short, and that the night cometh in which no man can work. During the past fiscal year, a member of the Board, and several of our missionaries have been removed by death. They now rest from their labours and have entered upon their gracious and glorious reward. These events should remind us all of our accountability to God, and should stimulate us to renewed zeal in our Master's service. Let us then work while it is day, that we may finish our course with joy and receive from our Judge and Saviour the welcome plaudit, "Well done, good and faithful servants, enter ye into the joy of your Lord."

RESOLUTIONS OCCASIONED BY THE DECEASE OF THE  
REV. SYMMES C. HENRY, D. D.

At a meeting of the Board, held on Monday, April 13th, 1857, the following minute was unanimously adopted, viz.

"Forasmuch as it has pleased the sovereign Disposer to remove by death the *Rev. Symmes C. Henry, D. D.*, an attending member of this board, we desire to record our sorrow in view of a so sudden and afflictive event, and to bear testimony to the worth of our departed friend—therefore,

*Resolved*, 1. That while we recognize the hand of God in his removal, and bow submissively to the divine will, we can but regard his decease, in the height of his usefulness, as a public bereavement.

*Resolved*, 2. That we deeply sympathize with his church and congregation, in the loss of a pastor so long distinguished among them for the zeal, fidelity, and devotion with which he discharged the duties of his pastorate, and for untiring efforts for their spiritual welfare.

*Resolved*, 3. That we offer our heart-felt condolence to the family bereaved of their affectionate husband and father, and pray that in their great affliction they may realize the truth of that comforting assurance, that 'weeping may endure for a night, but joy cometh in the morning.'

*Resolved*, 4. That the removal of one of our number, so lately conferring with us in regard to the interests of the Church of Christ, admonishes us to be diligent in the work the Master has given us to do.

*Resolved*, 5. That a copy of this minute be presented to the afflicted family; and also, to the church and congregation of which the deceased was pastor."

### CONCLUSION.

In reviewing the labours and results of the past year, it becomes us all to humble ourselves before God for our great short-comings in duty, and to grieve that so little has been accomplished, compared with what might have been effected, by the blessing of the Almighty, if the whole Church had put forth her entire strength, and prayed as she ought for the prosperity and success of her missions. How few have been our self-denials—how little our active zeal—how small our contributions—how infrequent and feeble our prayers in behalf of the missionary cause! What little has been effected in strengthening our missions—in extending the Church—and for the conversion of souls! Compared with the sacrifices, and labours, and prayers of the primitive disciples, how great have been our short-comings! Contrasted with the success of apostolic missionary efforts, how very little have we accomplished, notwithstanding our greater numbers, wealth, and facilities for the establishment and extension of the kingdom of Christ! As we have thus greatly come short of our duty, and failed to accomplish what we might otherwise have effected, by the blessing of God, we cannot be forgiven without sincere repentance, nor reasonably expect the divine blessing upon our future efforts. If under a deep conviction of our short-comings and sins, our whole people would truly humble themselves before God, implore his pardoning mercy, and earnestly seek his grace to enable them to be more faithful in time to come, might we not reasonably expect the more abundant out-pour-

ing of the Spirit, and the greater, yea, the most glorious success of our missionary efforts?

How much have we to stimulate and encourage us in the further prosecution of the domestic missionary work! What an immense field does our country furnish for successful missionary labour! How many millions are here within our reach—speaking our own language—easily accessible by our missionaries—and for the most part prepared, by education and custom, to look with favour upon the organization of churches, and the establishment of Christian institutions among them. How congenial, too, are the simple forms of worship of our denomination, and the representative character of our ecclesiastical government, to the republican habits of our countrymen, and their civil and political views and customs. Nowhere on the face of the globe is there so promising a missionary field—none which has proved so productive, nor in which so extensive and glorious a harvest may be speedily gathered. And how deep a personal interest have we, as American citizens and Christians, in the speedy and thorough evangelization of our own land! All that we most dearly prize on earth is at stake—our property—our social well-being—our personal liberty—our very lives! For how can these be protected and secured, without the pervading, restraining, and conservative influence of the gospel of Christ? Viewed also in connection with heathen lands, how unspeakably important is the thorough evangelization of this land. What numbers of foreign missionaries might our country furnish—what millions of money for the propagation of the gospel abroad, if the men and the gold of our nation were converted and consecrated to the glory and service of God!

How much, notwithstanding our short-comings and sins, has already been accomplished, by the blessing of the Almighty. Our beloved Church is established in almost every State and Territory of our happy Union, and is gradually planting her standards in every part of the land. By her national and conservative character and the purely evangelical spirit and aims of her ministry, she has the respect and confidence of all sections, and wields a moral influence of immense power for good.

Above all, the great Head and King of Zion has manifestly blessed our efforts, and is still granting her the gracious tokens of his love. With such encouragements to incite and sustain our Christian faith and zeal, let us redouble our exertions for the glory of God, the salvation of souls, and the welfare of our country.

Let us remember, however, that it is "not by might, nor by power; but by my Spirit, saith the Lord of hosts." Paul may plant, and Apollos water, but God must give the increase. "The Lord our God is a jealous God"—and, "Thus saith the Lord God; I will yet for this be inquired of by the house of Israel, to do it for them." With more earnest, wrestling prayer on the part of God's people for the ambassadors of Christ, how much more successful would our missionaries be in the propagation of the gospel. And when we consider the difficulties with which they have to contend, the self-denials they are compelled to practice, the trials and discouragements to which they are subjected, and the unspeakable importance of the work in which they are employed, shall they not have our liveliest sympathies and our most earnest prayers?

Prayer to be effectual must be accompanied by the use of all proper means; it cannot even be sincere without practical exertion. It is worse than useless, it is presumptuous and sinful, to pray, "Thy kingdom come," and yet refuse or neglect to do what is required of us to promote the cause of Christ. We must devote our time, and strength, and wealth, as well as pray, if we would secure the blessing of God. Every one ought to contribute, cheerfully and liberally, to this blessed cause, "as God hath prospered him"—"according to his ability." All that we possess is the gift of God; and as his stewards we are accountable to him for the manner in which we discharge the trust committed to us. If his people were more faithful in this respect, how much more prosperous might they be both in temporal and spiritual things, and how much more abundantly would God bless their labours in his service. "There is that scattereth, and yet increaseth; and there is that withholdeth more than is meet, and it tendeth to poverty." "Bring ye all

the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it."

We rejoice and give thanks to God that there are some who possess and manifest the spirit of prayer and zeal and benevolence in a high degree; and it is in a great measure owing to them, under God, that the missionary cause has made the progress that it has. But how much more might be accomplished if our people would more generally coöperate in this great and noble work! How many individual professors—nay, how many churches even, do little or nothing to promote the cause! Will the time not come, oh Lord, how long! when every church and every Christian throughout our whole denomination will unite, as with the heart of one man, in the vigorous prosecution of this immense and difficult, but noble and glorious work? Does it not require the active and hearty coöperation of all? Does not the Providence of God demand it? Does not the command of Christ enjoin it? Do not the welfare of the Church, the prosperity of our country, and the eternal interests of millions most urgently enforce it? Let no one then refuse "to come up to the help of the Lord, to the help of the Lord against the mighty."

Yes, dear brethren, what we need, on our part, is more fervent prayer, greater self-denial, more constant and earnest zeal, greater liberality, and more general and hearty coöperation in this great and blessed work. With these, and the promised blessing of the Almighty, the missionary cause will gloriously triumph over every obstacle, and our whole country be speedily and thoroughly evangelized, to the glory and praise of our redeeming God and Saviour.

The usual *Statistical Table* of missionaries and labours performed, is now laid, with this Report, before the Assembly, for inspection, together with all the papers relating to the state of the Treasury.

The term of service of the following members of the Board expires during the meeting of this Assembly.

## TWELFTH ANNUAL REPORT OF THE WESTERN EXECUTIVE COMMITTEE TO THE BOARD OF DOMESTIC MISSIONS.

YOUR Committee has now been in existence twelve years, and in looking back over that period we feel that we have cause of special gratitude that all the members of our body have been spared until the present time. Some who were once members of the Committee have removed to other fields of labour, and others have come in and taken their places, but no one who ever belonged to our number has yet been removed by death. Those who have been connected with the Committee from the beginning have watched with the deepest interest the varying phases which the work of missions has assumed in the field under our charge, and the changes which have taken place within that time. States which were then for the first time thrown open for settlement, have since become populous, and taken rank along side of the older members of the confederacy. Four new Synods have been erected on a Territory which was then covered by a single one, and Presbyteries, ministers, and churches are now counted almost by scores where they then existed isolated and alone, separated far distant from each other. Although in some portions of our field the growth of the churches has been retarded by the constant drain of their members to the newer States and Territories, still, we believe there is no general region in which the Church is not as strong as it then was, and in most places the growth has been marked and rapid. In Texas, Illinois, and Iowa, the growth has been the most marked, because population has flowed to those States more rapidly than to other parts. Twelve years ago the Synod of Illinois covered the whole territory embraced in the States of Illinois and Iowa. Now there are four Synods on that territory. Illinois then had forty, and Iowa nine ministers, serving one hundred and twenty-two churches. Now they have little less than two hundred ministers preaching to near two hundred and fifty churches. Then Texas had not been annexed to the United States, and its missionaries, who were few and far between, were under the care of the Foreign Board. Now we have there a Synod composed of about fifty ministers and fifty-five or sixty churches. Well may we exclaim, "What hath God wrought!" The first year of our existence as a Committee we received into our Treasury \$10,374.68. During the eleven months, ending March 1, 1856, we received \$20,153.23. We take these years for comparison, because we had agents at work collecting during both of them. The whole number of missionaries commissioned

by us during the first year of our existence was one hundred and four. The number commissioned during the past year was two hundred and thirteen. These facts serve to show that our Church has made very decided progress in the West within that time; a large part of which, under God, is due to the aid afforded by the Board of Domestic Missions, without which many of the ministers who have gone into the new States and Territories could not have been supported.

#### STATE OF THE TREASURY.

The General Assembly two years since having inaugurated a scheme of Systematic Benevolence, which contemplated dispensing entirely with all paid agencies for the collection of funds, your Committee felt bound to carry out that policy and give it a fair trial.

During the past year they have thrown the work of collecting funds where it properly belongs, entirely into the hands of the pastors and church sessions. They have visited, in the persons of some of their members, as many of the Presbyteries and Synods as they could, and laid the wants of the Board before them, and left the matter with them. Owing to the great drought of last summer in a large part of our field, there was almost an entire failure of the crops, which greatly curtailed the income of the agricultural portion of the community and largely increased the expense of living in the towns and cities. This naturally had a tendency to lessen the contributions to our treasury. But we are happy to add, that notwithstanding these drawbacks, the experiment of dispensing with paid agents has been more successful than we anticipated. From the Treasurer's report, herewith submitted, it will be seen that the receipts from all sources from March 1, 1856, to March 1, 1857, have been \$17,519.83, to which is to be added \$2469.20 worth of clothing sent to the depot by the ladies, and a balance on hand the first of March, 1856, of \$1479.83, making the whole sum that has come into our treasury during the year \$21,468.33. The whole amount received during the twelve months ending April 1, 1855, was \$13,122.63, but during the next twelve months it arose to \$22,069.11, of which \$5575.00 were from legacies. If then we deduct the legacies from each year, and compare the contributions from the churches, the account will stand thus: during the twelve months ending on the first instant we have received \$651.77 more than we did during the twelve months ending April 1, 1856, and \$4397.20 more than we did during the twelve months ending on the first of April, 1855. The two former years we had travelling agents, whilst during the last we had but one for a very short time. These facts, taken in connection with the other already alluded to, the failure of the crops and the severity of the winter, encourage us to hope that the experiment of doing without travelling agents will prove eminently successful. The first year of such an experiment must necessarily be a trying one. Pastors and sessions, which for a long series of years have depended on the annual visits of agents to stir up their churches to the duty of giving to the Board, will naturally be reluctant at first to discharge that duty themselves. We must expect that it will require years of patient toil to get the system of giving steadily and at regular periods, fully established in all the churches. The church authorities must expect to make repeated efforts before they can have their plan of systematic benevolence fully established and in operation in all the churches. The efforts of the past year in our portion of the field are such as to encourage the Board and the General Assembly to persevere in the effort to establish a system of benevolence which will eventually secure a contribution to Domestic Missions from every church under its care.

## MISSIONARIES IN COMMISSION.

On the first day of March, 1856, there were one hundred and sixty-two missionaries in commission in our territory. One hundred and twenty of these have been re-commissioned, their former commissions having expired during the year, (re-commissions have been granted to twenty-nine missionaries whose commissions expired before the beginning of the year,) and sixty-four new commissions have been issued, making a total of two hundred and thirteen commissions granted during the year. The whole number in commission during the year was two hundred and fifty-five. The whole number last year was two hundred and thirty-five, showing a gain this year over the last, in the number of missionaries, of twenty. Last year we re-commissioned one hundred and fourteen, this year one hundred and forty-nine, and we commissioned sixty-nine new ones last year and this year sixty-four.

## SELF-SUSTAINING CHURCHES.

Greater efforts have been made during the past year to induce those churches which have been a long time on the funds of the Board, to become self-sustaining, than on any former occasion. The Secretary of the Committee, by their direction, made several tours through the churches for that purpose, and succeeded in bringing quite a number of them to assume the whole support of their pastors or stated supplies, which otherwise would probably have continued to ask aid. In this way several thousand dollars have been saved to the funds of the Board. The Committee are convinced that many thousands might annually be saved in this way if the Presbyteries, which alone have the power, would take the matter in hand, and by a process of regular visitation of the churches receiving aid, would bring them up to the duty of self-support. We are satisfied by the examinations which we have made, that there are many churches receiving aid, which by a little sacrifice might support themselves. It is a reproach to any church to ask the aid of others to supply them with the gospel when they are able to supply themselves, and the impression that there are many such on the funds of the Board, operates as a check on the benevolence of the churches in their contributions to its funds. It therefore becomes the Presbyteries to look narrowly into every case asking aid, and to see that this ground of objection to the Board is removed. The responsibility of every wrong appropriation of funds, lies primarily and chiefly at their door, as no grant is made until it has been recommended by them. It is due to truth, however, to state that many of the churches whose ministers have been re-commissioned, have lately increased their payments towards their ministers' support; but owing to the great increase in the cost of living, the Board has been compelled to continue their appropriations in part. In all such cases there is a gradual approximation towards the point of self-support, which is gratifying to note. We have paid up all the missionaries commissioned by us who have reported, up to the first instant, and have a small balance of \$461.61 on hand; but an exact calculation shows that there will be due to the first instant, \$5375.71, so soon as reports shall come in from missionaries whose quarters have not yet expired. To meet this large sum as it falls due, liberal collections must be kept up in the churches, or the Board must fail to meet its obligations to the missionaries.

We have employed during the year a larger number of itinerant missionaries than usual, and would have employed still more, could suitable men for that difficult kind of work have been found. For the want of that sort of labour, many weak churches are dying out, and the scattered members of our communion who have

gone into the wilderness and ought to be gathered into churches of our own order, are going into other folds.

In conclusion, we would remark, that the field of our labours is yearly widening and the call for missionaries becoming louder and more numerous. Scarcely a mail reaches us but it brings the Macedonian cry from some part of this great valley. Had we the right kind of men and the means to sustain them, there need be no limits to the expansion of our Church in this country. But we can provide neither the one nor the other. All that we, as a committee, can do, is to receive the numerous and touching calls which are made to us, and then in response to send out the men and the money as they are furnished us by the churches, according to our judgment, as to where they will probably do the greatest amount of good. Being straightened both as to men and means, we are compelled to permit many of these calls to go unanswered, to which we would gladly have responded. Our churches and ministry need to be baptized afresh with an unwonted spirit of consecration of themselves and all their possessions to the cause of Christ, before this work of giving the gospel to our whole land will progress as the necessities of the country demand.

By order of the Committee,

L. J. HALSEY, *Chairman.*

W. W. HILL, *Corresponding Secretary.*

## BEQUESTS.

The General Assembly which met in 1840, authorized their Board of Domestic Missions to apply to the Supreme Court of Pennsylvania for an Act of Incorporation: this application was made, and a charter obtained, and the Board have now an incorporated Board of Trustees, entitled, "*The Trustees of the Board of Domestic Missions of the General Assembly of the Presbyterian Church in the United States of America.*" To this body, all legacies or bequests for the Board of Domestic Missions should now be given.

The State laws differ so much that no one form will answer in all the States, but in every case it is essential to give the RIGHT CORPORATE NAME.

## NOTICE TO APPLICANTS FOR MISSIONARY AID.

Applicants for missionaries and missionary aid, are respectfully and earnestly requested to pay particular attention to the following rules and regulations of the Board :

**Rule 1.** *Regular form in which applications are to come up to the Board, as often as made.*

Applications to the Board for *Missionary appointments and pecuniary aid*, and also for the *re-appointment* of Missionaries, *should always be made by the Elders of the Church, through the Presbytery, or the Corresponding Executive Committee of the Presbytery to which the church applying for assistance belongs—accompanied with a recommendation from said Presbytery or Committee, of the Missionary to be appointed, and a specification of the amount of aid indispensably necessary.*

If there be no Corresponding Executive Committee in the Presbytery, the application must be fully sanctioned by two neighbouring ministers, connected with the Presbytery to which the church belongs.

**Rule 2.** *Of the Board, in relation to renewing, dating, and ante-dating Commissions. Passed March 10th, 1851.*

In consequence of the constantly repeated applications of Presbyteries to ante-date Commissions, some for three, others for six, and some even for twelve months, and without any apparent reason, other than want of attention and prompt action on the part of Presbyteries and Committees of Presbyteries on Missions, thereby embarrassing the business of the Board, and depriving the Board of an accurate knowledge of the expenses of our Missions, for which provision must be made weekly, therefore,

1. *Resolved*, That the Presbyteries and Committees of Presbyteries on Missions, be respectfully requested to have Commissions of their Missionaries renewed before the expiration of their time of service, if practicable to do so; and in all cases to state definitely the time when they wish the Commission to be dated.

2. *Resolved*, That from and after the 1st day of May, 1851, the Board will ante-date no Commission beyond two months from the time of the reception of the application at the Mission Rooms, either in Philadelphia or in Louisville.

3. *Rules of the Board in relation to careful examination of applicants:—to information requested of Presbyteries by the Board, to assist it in its action:—and to churches able to support the gospel for themselves.*

"On motion,

1. *Resolved*, That the Committees of the Board, in Philadelphia and Louisville, be directed to examine carefully into the propriety and justice of every application for new Commissions, or for renewal of old ones; and whenever the sums applied for may be reduced, that the reduction may be made.

2. *Resolved*, That the Presbyteries be requested to state the amount raised by the churches or congregations forming missionary fields, in support of their pastors or missionaries, when they apply for Commissions from the Board for them, in order to enable the Board to act more intelligently on the applications.

3. *Resolved*, That before a Presbytery entertain the application of any organized church or missionary field, it be requested to inquire whether said church or field has any reasonable prospect of becoming self-sustaining; and whether said church or field may not properly and profitably be united with some contiguous church or churches, and the labour of a missionary, and the expense of his support, be saved to the Board, agreeably to the recommendation of the General Assembly.

4. *Resolved*, That all churches which have been long upon the Board, and are able to support the gospel of themselves, have their appropriations reduced; and that they be discontinued by the Board as soon as possible, in order that the Missionary funds of the Church may be husbanded, and more liberally and extensively applied to fields that are purely missionary, and in which the Church may expand and grow."

## IMPORTANT NOTICE TO PRESBYTERIES AND CHURCHES APPLYING FOR AID.

It has always been regarded as the duty of churches applying for aid, to inform the Board, through the Presbyteries by which their applications are recommended, of the amount of salary they promise to pay to their pastors, or stated supplies, in order that the Presbyteries and the Board may be able the better to judge whether the amount of aid asked for is reasonable and necessary. From some cause or other, this salutary custom has gradually fallen into disuse, at least so far as the Board is informed, and the information so obviously necessary is very generally withheld. In order to obtain this needed information in future, the Board, at its recent meeting, adopted unanimously the following resolution, viz.

*“Resolved, That the Executive Committees of the Board be, and they hereby are instructed to defer acting upon applications for missionary aid until they ascertain, if practicable, what amount of salary the churches applying for assistance from the Board have promised, or are willing to promise, to their ministers.”*

In view of this resolution of the Board, we respectfully request all the churches desiring aid, to inform their respective Presbyteries of the amount of salary they have promised, or are willing to promise, their ministers; and we also respectfully request all the Presbyteries and Presbyterial Committees on Missions, to furnish this information to the Executive Committees of the Board when applications for aid are recommended. This will prevent delay and trouble, as the Executive Committees, under the instruction of the Board, will of course defer acting upon all applications until they obtain, if practicable, the information required.

This rule is so obviously proper, and indeed indispensable to the judicious disbursement of the Missionary Fund of the Church, that we confidently trust it will be cheerfully complied with by all the parties interested.

## CLOTHING.

*Boxes of Clothing for Missionaries.*—For the information of those who may wish to furnish clothing, or other articles, for the comfort of our missionaries and their families, we publish the following.

Boxes of clothing, when sent directly to the office of the Board, without any particular designation, will be forwarded to such missionaries as are known to be the most needy; and the missionaries, to whom a box from any congregation or association is sent, will be requested to write to the donors, acknowledging the receipt.

In some instances, we are asked at the office to designate some missionary, and give particular information in regard to his circumstances, his family, etc. This information it is not *always* in our power to give; and not unfrequently difficulties arise from selecting particular missionaries in that way. As a general rule, then, we would say, as the result of our own experience in this matter, that if the donors have no special reasons for designating a particular missionary, the distribution of these boxes had better be left to the officers of the Board at the office. Our decided impression is, that a more equitable and judicious distribution will in this way be made, and the object of the benevolent donors be more completely gained.

*We ask particular attention to the following directions for forwarding boxes.*

1. In every box that is sent, put a *list of all the articles*, with an estimated value of each article; put on the same paper the name of the individual, congregation or association from whom the box comes; also the address of the person to whom

a letter of acknowledgment is to be sent. Let this paper be put in the box, where it will readily be seen on the box being opened. A copy of this list, with a letter, should also be sent to the Office of the Board, in which letter information should be given of the time when the box was sent, and by what conveyance, and any other things connected with the donation, which it may be desirable should be known at the office.

2. The box should be fully and plainly marked, "*Mission Rooms, 821 Chestnut Street, Philadelphia;*" and the place from which it comes should always appear on the outside. The articles should be carefully put up in strong and tight boxes, well nailed, and secured against rough handling, on a long voyage.

3. It is important that all boxes of clothing, designed more especially for the West, should be at the office as early as the first of September, that they may reach their destination before the navigation closes.

*Clothing Distributed Gratuitously.*—Boxes of clothing form no part of a missionary's regular appropriation—the Board, therefore, need the same amount of funds to meet their engagements, as if no boxes were forwarded. It is very important this should not be overlooked. These boxes are of great value to missionaries, and they need all that is sent to them; but we should be careful not to suffer these acts of kindness to lessen our pecuniary donations to the cause. The cause cannot admit of this without loss, and serious loss. Thus far there has been no pecuniary loss, but rather a gain, by the interest which has been excited in the preparation of these boxes. We fondly hope it will continue to be so, and that the interest in this cause will continue to increase, until our whole land is supplied with the gospel privileges.

*Contents of Boxes.*—As to what is to be put into these boxes, we are willing to leave that matter to the judgment of our good ladies, who so well know what is wanted in a family. Scarcely any article in common use will come amiss. Knives and forks, spoons, scissors, thread, yarn, silk, needles, pins, tape, buttons, etc. etc., in addition to articles of substantial wearing apparel, will be thankfully received. Flannel, muslins, calicoes, etc., not made up, are very acceptable. Garden seeds, medicines, etc.

## PRINCIPLES UPON WHICH THE WORK OF DOMESTIC MISSIONS IS CONDUCTED BY THE GENERAL ASSEMBLY.

*Resolved,* That the Assembly would re-affirm all the principles upon which it has heretofore carried on its Domestic Missions—principles which have been exhibited in a review of all the published minutes, acts, and doings of the Church in her highest judicatories, from the beginning; and which are drawn up and set forth in order in the Report of the Board of Domestic Missions, May, 1862.

*Resolved,* That the great work undertaken for so long a time by the Assembly, is the expansion and full establishment of the gospel of our Lord and Saviour Jesus Christ, by his own Spirit and power, over all our vast country. And it is purely a missionary work; missionary in this respect, that ministers are sent out by the Assembly, and means furnished for their support, in whole or in part, while they are preaching the gospel, and gathering and establishing churches. So soon as individual churches, or groups of churches, are established, and are able to support all the institutions of the gospel for themselves, they are no longer missionary in character, but immediately cease their connection with the Board, and fall into line with the great body of self-sustaining and contributing churches, and go to add to the solid material and power of the Presbyterian Church. Now the principles upon which the General Assembly conducts its Domestic Missionary work, are these: 1st. It is in the sense defined, a *missionary work*. 2d. The funds contributed for it are *missionary funds*. 3d. The men employed in preaching the gospel are, in their fields, *missionary men*. 4th. All the churches and fields aided and supplied, are *missionary churches and fields*. 5th. The funds supplied are funds for *temporary assistance*, and not for *entire nor permanent support*. The people aided are to *help themselves*, be it ever so little, from the beginning, and are to go

on to independence. 6th. The grand end and aim of the Assembly is to *establish self-sustaining churches and fields*, as fast and as far as possible, and so to increase the *solid material and power* of the Church, and accumulate *strength to go forward expanding*. 7th. Ministers and means are to be distributed according to the *relative importance and promise of different fields*, and in view of the *necessities of the whole field*, that there may be *equality, and no partiality*. 8th. The Assembly conducts this work through a *Committee or Board*, responsible to *itself alone*, under its advice and control, and which Board is required to exercise its sound discretion and judgment in deciding upon, and in conducting the business entrusted to it. 9th. *No debt* to be incurred in carrying forward the *missionary work*. The Assembly always acted upon this just and only safe principle, and a principle which has always been adhered to by our Church; and in the Assembly of 1803 the following resolution was passed: "That there ought to be no anticipation of the funds in future; or, in other words, that appropriations ought not to be made in any year, beyond the amount which the funds arising in that year will be sufficient to satisfy." p. 280. 10th. And finally, agents for visiting the churches, and collecting funds for the work, may be employed by the Board.

*Resolved*, That the Board be directed to go forward and conduct the work entrusted to its care on these principles, as heretofore, and that they be commended to the attention and observance of all Presbyteries and churches, in their applications for aid, and that the Board be also instructed to pay, as heretofore, due regard to the recommendations of Presbyteries. That all pastors and stated supplies be requested to take pains to circulate the Report when published, and diffuse more information on the subject of Domestic Missions among their people.—*Minutes of the General Assembly, held at Charleston, South Carolina, May 26, 1852, p. 216.*

### ACTION OF THE GENERAL ASSEMBLY ON DISCRETIONARY POWERS OF THE BOARD.

**ON APPLICANTS.**—In answer to the questions propounded by the Presbyteries of Union and French Broad, the Assembly would say, that though they do not recognize in the Board of Domestic Missions the authority to sit in judgment upon the orthodoxy or morality of any minister who is in good standing in his own Presbytery; yet from the necessity of the case, they must exercise their own sound discretion upon the expediency or in expediency of appointing, or withholding any appointment, from any applicant, holding themselves amenable to the General Assembly for all their official acts.—*Minutes, 1830, p. 16.*

**ON THE DISTRIBUTION OF FUNDS.**—Overture No. 13, a memorial from the Presbytery of Logansport, desiring the Assembly to say, whether the Board of Domestic Missions has the power to reduce the amounts recommended to be given in aid to any churches, under the care of any Presbytery, without consulting such Presbytery; and if so, whether the Board has not an equal right to take away the whole amount so recommended in any case. It was

*Resolved*, That while the Assembly expects the Board of Domestic Missions to pay great respect to the advice of the Presbyteries, touching missionaries labouring within their bounds, yet, in the distribution of its funds, the action of the Board must be controlled by the state of its treasury, and the relative importance of the various missionary fields under its care.—*Minutes, 1852, p. 221.*

**FEIBLE CHURCHES TO BE COMBINED.**—*Resolved*, That each Presbytery in our communion be recommended to discourage the sundering of feeble churches now united in support of the gospel, and generally to combine together such feeble churches in appropriate fields of labour, that the Board of Domestic Missions may be relieved from the need of a large allowance in such cases, and, where practicable, from the need of any allowance in aid of ministerial support.—*Minutes, 1846, p. 206.*

## CHARTER of the BOARD OF DOMESTIC MISSIONS.

*To all to whom these presents shall come.*

KNOW YE, That whereas the General Assembly of the Presbyterian Church in the United States of America have a *Board of Domestic Missions*, composed of Ministers and Laymen, members of the Presbyterian Church, the design of which is to afford aid to feeble Presbyterian churches in the support of pastors, to form new churches, and to supply destitute settlements with the stated ministry and gospel ordinances; and whereas, the aforesaid Board of Domestic Missions labours under serious disadvantages as to receiving donations and bequests, and as to the management of funds entrusted to them for the purposes designated in their Constitution, and in accordance with the benevolent intentions of those from whom such bequests and donations are received;

Therefore, William Brown, William Nassau, Sen., Matthew Newkirk, Solomon Allen, Alexander Symington, Ashbel Green, Cornelius C. Cuyler, William A. McDowell, and Thomas Hoge, citizens of the United States, and of the Commonwealth of Pennsylvania, and their successors, are hereby constituted and declared to be a body politic and corporate, which shall henceforth be known by the name of "The Trustees of the Board of Domestic Missions of the General Assembly of the Presbyterian Church in the United States of America," and as such shall have perpetual succession, and be able to sue and be sued in all courts of record and elsewhere; and to purchase and receive, take and hold, to them and their successors for ever, lands, tenements, hereditaments, money, goods, and chattels, and all kinds of estate which may be devised, bequeathed, or given to them, and the same to sell, alien, demise and convey; also to make a common seal, and the same to alter and renew at their pleasure; and also to make such rules, by-laws, and ordinances, as may be needful for the government of the said Corporation, and not inconsistent with the Constitution and laws of the United States and of this State: Provided always, that the clear yearly value of the real and personal estate held by the said Corporation, shall not at any time exceed the sum of two thousand dollars.\*

The Trustees above named shall hold their offices one year from the date of their incorporation, and until their successors are duly qualified to take their places, who shall be chosen by the aforesaid Board of Domestic Missions at such times, and in such way and manner, as shall be prescribed by the said General Assembly of the Presbyterian Church in the United States of America, provided not more than one-third of the Trustees shall be removed in any one year.

The Trustees hereby incorporated, and their successors, shall, subject to the direction of the said Board of Domestic Missions, have full power to manage the funds and property committed to their care, in such manner as shall be most advantageous, not being contrary to law.

ASHBEL GREEN,

*President of the Board of Domestic Missions of the General Assembly of the Presbyterian Church in the United States of America.*

WILLIAM A. McDOWELL,

*Corresponding Secretary and General Agent of the Board of Domestic Missions.*

\* By an Act of the Legislature of Pennsylvania in 1857, the word "*Domestic*" having been inserted in the corporate title of the Board of Trustees, we have inserted the word in the above copy of the original Charter.

## RESOLUTIONS OF THE GENERAL ASSEMBLY,

MAY, 1857.

The Committee to whom was referred the Annual Report of the Board of Domestic Missions, recommended to the Assembly the following resolutions, which were adopted:

1. *Resolved*, The Assembly would humbly and gratefully render thanks to Almighty God and our Saviour, for the large measure of health granted to our missionaries during the past year, and for the degree of success with which he has been pleased to crown their labours.

2. *Resolved*, While it is encouraging to find that the number of contributing churches to the Board is increasing slowly from year to year, yet the Assembly mourn over the fact that the number of non-contributing churches continues so large.

3. *Resolved*, The Assembly recommends to Presbyteries to adopt such measures as they may deem necessary to bring every minister and church session to the faithful performance of this duty in such manner as they may deem best.

4. *Resolved*, That the Assembly recommend to the Board great prudence in the application of the funds of the Church, and request the Presbyteries to do all in their power to relieve the Board, as fast and as far as possible, of appropriations to feeble churches and missionary fields.

5. *Resolved*, That the Assembly approves the action of the Board in effecting a change in the legal form of the title of the Board, from the *Board of Missions* to the *Board of Domestic Missions* of the General Assembly of the Presbyterian Church in the United States.
